SUMMARY

Computer Engineer graduate passionate about AI-powered web applications and full-stack development. Experienced in building responsive web applications, integrating AI APIs, and developing software solutions using modern web technologies. Strong problem-solving skills with a continuous learning mindset and a passion for creating AI products that solve real business problems.

EDUCATION

Bulacan State University

Bachelor of Science in Computer Engineering

2022 – 2026

PROJECTS

Frozen Food & Shipment Tracker

- Built a storefront and shipment tracking platform for a frozen food business.
- Implemented product catalog, inquiry system, shipment tracking, and responsive user interface.
- Integrated Firebase services for backend functionality and hosting.
- Tech: React • TypeScript • Tailwind CSS • Firebase

INCIQ – AI-Powered Skincare Companion

- Developed a responsive web application that helps users explore skincare products and receive personalized recommendations.
- Implemented user authentication and a modern component-based interface.
- Focused on responsive design and intuitive user experience.
- Tech: React • Vite • Tailwind CSS • Authentication

TalaTidePH – Smart Tide Tracking Web Application

- Developed a responsive web application that provides tide forecasts for coastal communities in the Philippines.
- Built dashboard interfaces using Next.js and TypeScript with a mobile-friendly design.
- Deployed the application using Vercel.
- Tech: Next.js • TypeScript • Tailwind CSS • Vercel

TECHNICAL SKILLS

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

AI & Automation: OpenAI API, Prompt Engineering

Database & Cloud: MySQL, Supabase, Firebase

Tools: Git, GitHub, VS Code

STRENGTHS

- | | |
|------------------------------|------------------------------|
| - AI Application Development | - Full-Stack Web Development |
| - Analytical Problem Solving | - Team Collaboration |
| - Fast Learner | - Strong Communication |
